DEPARTMENT OF CHEMISTRY

CERTIFICATE COURSE ON

DETERGENTS AND HAND SANITIZER MAKING

SUMMARY REPORT

Academic year: 2018-19

No. of Hours: 30

Course Co-ordinator: **Nidhisha V**

Department of Chemistry of WMO Arts and Science College, Muttill conducted a certificate course on the topic "Detergents and Hand sanitizer making". The course started from 4th January 2019 to 11th February 2019. 20 students participated in the programme. All the participants have been granted certificates for the course. The content of the course includes theory sessions on pharmaceutical chemistry and analytical chemistry and practical session on the process of making soap, detergents, hand wash and hand sanitizer. Participants have undergone the training with great enthusiasm. Finally, we evaluated the participants' using a practical test.

Course Outcome

- Understand the role of chemistry in service of humanity
- Understand the manufacturing processes of soap, detergents, hand wash, and hand sanitizers
- Understand the principles of drug discovery and development, and pharmaceutical analytical techniques
- Analyze chemical samples using various analytical techniques
- Understand the importance of sustainability and quality control in chemical manufacturing and analysis.

CERTIFICATE COURSE ON
ENVIRONMENTAL CHEMISTRY

SUMMARY REPORT

Academic year: 2018-19

No. of Hours: 30

Course Co-ordinator: **Sonima V**

Department of Chemistry of WMO Arts and Science College, Muttill conducted a certificate course on the topic "Environmental Chemistry". The course started from 1st October 2018 to 23rd October 2018. 20 students participated in the programme. Sonima V handled the session. All the participants have been granted certificates for the course. The content of the course includes Introduction to Environmental Chemistry, Sources and Types of Environmental Pollution, Analytical Techniques in Environmental Chemistry, Global Environmental Issues, Environmental Regulations and Policies. All the participants have been granted certificates for the course.

Course Outcome

- Understand the chemistry of natural and anthropogenic compounds in the environment.
- Analyze environmental samples and interpret the results.
- Identify sources of environmental pollution and evaluate their impact on the environment.
- Identify various global environmental issues and impacts.
- Evaluate environmental policies and regulations and propose solutions to environmental problems.

Certificate Programme on E-banking

Summary Report

Academic year – 2018-2019

Number of Hours: 30

Course Co-ordinator: Shabeerali Pulikalakath

Certificate course on e-banking was designed to help the students to access banking service on the web. Participants learned to login into their bank account and do various financial activities over internet. Students are able to identify and prevent various fraudulent activities arising in the digital world.

The course was conducted from 09/11/2018 to 31/03/2019. The faculty members in the department of commerce served as resource person. all sessions were conducted offline at third B.com class room. Fifty students – who successfully completed the course, were given certificate. The students got practical experience on various E banking transactions and all the participants became able to apply electronic banking facilities to real life situation.

Class time: 3.30 to 5 (offline)

Online 1 Hour session

Course Outcome

- It provides basic knowledge about e-banking facilities
- It provides knowledge about the use of various e- banking Services
- Students are able to apply e- banking facilities to real life situations

Certificate course on Hardware assembling and software Installation

Academic Year :2018-2019

Number of Hours:30

Course coordinator: Johnson A J

Summary Report

The course on hardware assembling and installation was conducted from 10/12/2018 to 10/02/2019. The course covered basics of hardware and installation. The students benefited from the course in improving their technical knowledge.

Course outcomes

- Understanding Hardware Components: Students should develop a comprehensive understanding of various hardware components, including processors, memory, storage devices, input/output devices, and networking equipment.
- Assembly and Disassembly: Students should be able to assemble and disassemble computer systems, including installing and removing hardware components safely and correctly.
- Troubleshooting and Maintenance: Students should acquire skills in troubleshooting hardware issues and performing routine maintenance tasks such as cleaning, upgrading components, and optimizing system performance.
- System Configuration: Students should be able to configure hardware settings, including BIOS/UEFI setup, device drivers, and hardware-level settings to ensure compatibility and proper functioning of the computer system.
- Peripheral Devices: Students should gain knowledge about various peripheral devices such as printers, scanners, monitors, and multimedia devices, including their installation, configuration, and troubleshooting.
- Networking Fundamentals: Students should understand the basics of computer networks, including network topologies, protocols, and hardware components involved in building and maintaining a network.

Certificate course on House wiring/Equipment Maintenance

Summary Report

Academic year: 2018-19

No of Hours : 30 hrs

Course Coordinator: Abdul Rasheed

The Department of Electronics offered a certificate course on House wiring techniques from 4th Oct 2018 to 25th October 2018. The 30-hour course, co-ordinated by Abdul Rasheed, Assistant Professor, attracted a total of 20 participants from BSc Electronics. The course provided a basic understanding of Electrical wiring and equipment's handling techniques and practical skills in Maintenance of electrical wiring problems in the normal life. Participants gained valuable knowledge in house wiring and safety measures on single phase electrical wiring. Overall, the course successfully equipped the 20 participants with essential ideas and awareness on the electrical wiring and precautions on electrical wiring and maintenance.

The twenty students Participated actively and completed all the activities related to the course were given certificates.

Certificate Course on Basics of Astronomy.

Summary report

Academic year :2018-19

No. of Hours : 37

Course Co-Ordinator: Dr. Biju KG

Certificate Course on Basics of Astronomy (WMPHY2) was designed as a 37-hour certificate course. The course was conducted from 05/10/2018 to 30/11/2018 through offline mode and given two assignments at the end of the course. Fifteen students registered and successfully completed the course. The course involves studying the vastness of the Universe, the complexity of galaxies, and the incredible distances between celestial objects. The study of astronomy requires a high level of attention to detail, critical thinking, and problem-solving skills. These skills can be transferable to other areas of life and work and can help individuals become more responsible in their personal and professional lives.

Course outcomes:

- Students learn the star constellations, eclipses etc.
- They became capable of identifying the various celestial objects in the night sky.
- They learn how to mark the positions of celestial objects.
- They learn the structure of the sun and the solar system.
- They learn about the formation and evolution of stars and Galaxies.
- They learn the major theories about the Universe.
- It will enable the students to think critically and develop problem-solving skills.
- Knowledge of astronomy can help them to see the Universe in a whole new light and can help to become humbler and more appreciative of their place in the Universe.

Certificate Course on Non-Conventional Energy sources.

Summary report

Academic year :2018-19

No. of Hours : 30

Course Co-ordinator : Dr. Biju KG

Certificate Course on Non-Conventional Energy Sources (WMPHY1) was designed as a 30-hour certificate course. The course was conducted from 10/01/2019 to 02/03/2019 through offline mode, and given two assignments at the end of the course. Twenty students registered and successfully completed the course. The use of non-conventional energy sources promotes sustainable development by reducing the reliance on fossil fuels and minimizing the carbon footprint. A certificate course can equip individuals with the knowledge and skills to promote and implement sustainable development practices.

Course outcomes:

- Students learn the various types of Non-Conventional Energy sources.
- They understand the need to shift from conventional energy sources to Non-Conventional Energy sources.
- They learn the different techniques for converting energy from Wind, Ocean, Sun etc., to other usable forms.
- They acquired a vision of global citizenship by understanding the problems caused by the continuous and consistent use of fossil fuels. They also learned the importance of working together for a green earth.

Certificate Course on Academic Writing using LaTeX

Summary report

Academic year :2018-19

No. of Hours : 30

Course Co-ordinator: Dr.KK.Hamsa

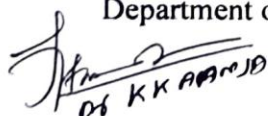

Department of Statistics, WMO Arts and Science College, Muttill has successfully conducted a certificate course on "Academic Writing using LaTeX". The course duration is from 2nd July 2018 to 20th July 2018. The 30 hours short-term course consists of installation of LaTeX, formatting of output document, inserting mathematical formulae and drawing with LaTeX. There are 14 participants in the course. Dr.KK.Hamsa, led the session with the help of faculties from the Department of Statistics. All successfully completed the short-term programme. After an evaluation test, participants had been awarded certificates.

Course outcomes:

- Students will be able install LaTeX
- Students will be acquainted with formatting of output document
- Students will learn to insert mathematical formula to the document
- Students will be able to add pictures to the document

Certificate Course on Statistical Package for Social Sciences (SPSS)

Summary report

Academic year :2018-19

No. of Hours : 30

Course Co-ordinator: Ms. Athira Jose

Department of Statistics of WMO Arts and Science College, Muttill conducted a certificate course on the topic "Statistical Package for Social Sciences (SPSS)". The course started from 10th December 2018 to 7th January 2019, 9 students participated in the programme. Ms. Athira Jose handled the session. All the participants have been granted certificates for the course. The content of the course includes the study of doing descriptive statistics, bivariate statistics, outcome prediction, etc. using SPSS. Participants have undergone the training with great enthusiasm. They have successfully completed the training during the stipulated period of 15 days. Finally, we evaluated the participants' using a practical test. 9 students, who successfully completed the course, were given certificates.

Course outcomes:

- Students will learn skills in programming with SPSS
- Students will be able to do quantitative analysis using data in SPSS
- Students will be able to do prediction using linear regression and other methods
- Critical thinking and logical reasoning of students will be developed

Certificate Course on R Programming

Summary report

Academic year :2018-19

No. of Hours : 30

Course Co-ordinator: Mr.Shakkeelurahman OPC

Department of statistics, WMO Arts and Science College, Muttill has successfully conducted a certificate course on "R Programming ".The course started from 3rd January 2019 and ended on 23rd January 2019.The 30 hours short-term course consists of a package of data analysis with the software R. It consists of introduction to probability, inferential statistics, and linear regression and modeling.There are 14 participants in the course. Mr.Shakkeelurahman, led the session with the help of faculties from the Department of Statistics.All successfully completed the short-term programme. After an evaluation test, participants had been awarded certificates.

Course outcomes:

- Students will learn skills in programming with R
- Students will be acquainted with the concepts of probability theory
- Students will be able to make out the basics of sampling methods.
- Creative thinking and logical reasoning will be developed
- Students learn to familiarize data analytics

**Certificate Course on Recreational Mathematics
Summary report**

Academic year :2018-19

No. of Hours : 30

Course Co-ordinator: Mini C

Certificate Course on Recreational Mathematics (WMMAT1) was designed to help students, to use recreational mathematics in their activities in meaningful and worthwhile ways. It aimed at promoting mathematical curiosity, problem-solving skills, and a sense of enjoyment. The participants understood how this can capture the interest and motivation of people who find mathematics dull and uninteresting. The course was conducted from 1-11-2018 to 30-12 2018. Faculty members in the Department of Mathematics helped the students to develop and execute mathematical ideas into creative models. 17 sessions were conducted during the period and students' presentations were conducted as part of activities of the Mathematical Circle. All student participants in the course were engaged in preparing models for the Math exhibition conducted as part of MAGMA 2018. Students got practical experience with various puzzles, games, and models in Mathematics. The collaborative nature of the course helped students to exchange ideas and learn from one another's approaches. Fifty students, who successfully completed all the activities related to the course, were eligible for certificates.

Course outcomes:

- Students could enjoy doing mathematics after exposing to several recreational type activities.
- Students became able to communicate math with non-mathematical audiences.
- Creative thinking and logical reasoning are developed.
- Students learned to appreciate others for their achievements.
- Students became able to apply mathematics to real-life problems.

Certificate course on House wiring/Equipment Maintenance

Summary Report

Academic year: 2018-19

No of Hours : 30 hrs

Course Coordinator: Abdul Rasheed

The Department of Electronics offered a certificate course on House wiring techniques from August 2018 to October 2018. The 30-hour course, co-ordinated by Abdul Rasheed, Assistant Professor, attracted a total of 20 participants from BSc Electronics. The course provided a basic understanding of Electrical wiring and equipment's handling techniques and practical skills in Maintenance of electrical wiring problems in the normal life. Participants gained valuable knowledge in house wiring and safety measures on single phase electrical wiring. Overall, the course successfully equipped the 20 participants with essential ideas and awareness on the electrical wiring and precautions on electrical wiring and maintenance.

The twenty students Participated actively and completed all the activities related to the course were given certificates.

Value Added Course 2018 -19 ***Newspaper Publication***

Summary Report of the course

Academic year :2018-19

No. of Hours: 30

Course Coordinator: Greeshma John MJ

A newspaper design course is a program that teaches students the skills and techniques involved in designing newspapers. It focuses on various aspects of newspaper layout, typography, graphic design, and visual storytelling. The course aims to train individuals to create visually appealing and effective newspaper designs that enhance the overall reading experience.

Dated from 10/12/2018 to 31/12/2018

20 students actively participated in the program.

Course Outcome

- Basic knowledge Newspaper and Magazine
- Understanding the Design Softwares and Tools
- Page designing and color sense
- Dummy preparation
- Magazine page design
- Software design and tools usage
