CURRICULAR ASPECTS

1.2.1: Certificate Course – Summary Reports and Certificates

2021-22

Contents		
Sl No	Name of the Course	Department
1	Communicative Skills in English	English
2	Hardware assembling and Software Installation	Computer Science
3	Office Management	Commerce
4	House wiring Techniques	Electronics
5	Video Editing and Shooting	Mass communication
6	Detergents and Hand sanitizer making	Chemistry
7	Environmental chemistry	Chemistry
8	General fitness	Physical Education
9	Recreational Mathematics	Mathematics
10	Basics of Astronomy	Physics
11	Non-Conventional Energy sources	Physics

12	Statistical Data processing and Analysis.	Economics
13	Advanced Programming In R	Statistics
14	Tally	Commerce CA
15	Certificate course in SPSS	Statistics
16	Basic Communication skill in Arabic	Arabic
17	Arabic DTP with Translation	Arabic
18	Circuit Simulation and PCB designing	Electronics
19	Basics of Flutter	Computer Science
20	Research methodology	MSW
21	LED assembling and Maintenance	Electronics
22	Writing in Latex	Physics
23	Disaster Management Evaluation	MSW
24	Technical writing with Latex	Mathematics
25	Newspaper publication	Mass communication
26	Basics of Photography	Mass communication
27	Basic communication skills, Correspondence of translation	Hindi
28	Translation studies in Malayalam	Malayalam

SUMMARY REPORT (2021-22)

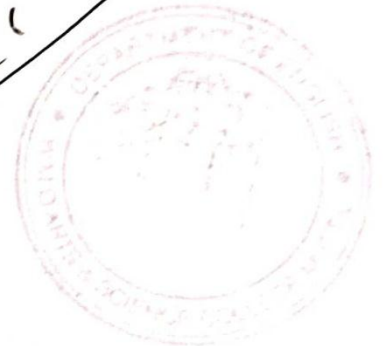

DEPARTMENT OF ENGLISH

Certificate course on communicative skills in English was designed to help the students to improve their communicative skills in English. The course helped the students to learn English language professionally and prepare them for the global market. The course structure comprises of 30 hours. The course was divided in a systematic way to allow beginners to understand language from its basic structure. 30 hours of engagement equipped the students with understanding of language in terms of reading, listening, speaking and writing. 71 students successfully benefited from the course, and certificates were given after the successful completion of the program.

Certificate course on Hardware assembling and software Installation

Academic Year :2021-2022

Number of Hours:30

Course coordinator: Johnson A J

Summary Report

The course syllabus included the network basics ,topology concepts,various networking devices etc.74 students completed the course.The feedback collected from students remarked the knowledge benefitted from the topics.

Course outcomes

1. Knowledge of Hardware Components: Students should be familiar with various hardware components, such as processors (CPUs), memory (RAM), storage devices (hard drives, SSDs), input/output devices, motherboards, and expansion cards.
2. Assembly and Disassembly of Computer Systems: Students should be able to assemble and disassemble computer systems, including installing and configuring hardware components properly.
3. Troubleshooting and Maintenance: Students should develop skills in troubleshooting hardware issues and performing routine maintenance tasks to ensure the optimal functioning of computer systems.
4. Peripheral Device Installation: Students should learn how to install and configure peripheral devices such as printers, scanners, and external storage devices.
5. Knowledge of Networking Hardware: Students may learn about networking hardware, including routers, switches, and network interface cards, and gain an understanding of basic networking concepts.

CERTIFICATE COURSE ON OFFICE MANAGEMENT

Summary Report

Academic year – 2021-2022

Number of Hours: 30

Course Co-ordinator: Kabir.P

Certificate on office management help the students to focus on the organizing and analyzing of various office activities that are required to efficiently manage and run a business. Participants learned to coordinating, organizing and panning office activities as well as motivating the effort of others towards specific objective in the organisation.

The course was conducted from 11/10/2021 to 31/03/2022. The faculty members in the department of commerce served as resource person. All the sessions were conducted offline. Sixty students – who successfully completed the course, were given certificate. The students got skills and competencies required for an office manager and also identify components of office management roles and procedures and team dynamics.

Class time: 3.30 to 5 (offline)

Online 1 Hour session

Course Outcome

- (1) Identify skills and competencies of an office manager.
- (2) Describe different forms of organizations.
- (3) Develop processes for office operations.
- (4) Identify components of office management roles and procedures and team dynamics.

Certificate course on House wiring Techniques

Summary Report

Academic year: 2021-22

No of Hours 30 hrs

Course Coordinator: Abdul Rasheed

The Department of Electronics offered a certificate course on House wiring techniques from 6th Jun 2022 to 30th June 2022. The 30-hour course, co-ordinated by Abdul Rasheed, Assistant Professor, attracted a total of 20 participants from BSc Electronics. The course provided a basic understanding of Electrical wiring and equipment's handling techniques and practical skills in Maintenance of electrical wiring problems . Participants gained valuable knowledge in house wiring and safety measures on single phase electrical wiring. Overall, the course successfully equipped the 20 participants with essential ideas and awareness on the electrical wiring and precautions on electrical wiring and maintenance.

The twenty students Participated actively and completed all the activities related to the course were given certificates.

Certificate Course 2021 -22 ***VIDEO EDITING & SHOOTING***

Summary Report of the course

Academic year :2021-22

No. of Hours: 30

Course Coordinator: Aswin

Certificate course on Video Editing is conducted in the 2020-21 academic year especially for 2018-2020 batch in their 6th semester from 11/01/2021 to 28/01/2021 on the basis of the paper Television production & Cinema. Apart from theory , the certificate course is intended to give basic practical knowledge on video shooting and editing. Understanding the most modern camera and editing tools.40 students actively participated in the program.

Course Outcome

- Basic knowledge on Videography
- Understanding the Editing Software and Tools
- Practical idea on GOpRO HERO 8 (Camera)
- Understanding Shot Scene and Scripting
- Song choreography and Visual element
- Arranging the shots and Visual composition

CERTIFICATE COURSE ON

DETERGENTS AND HAND SANITIZER MAKING

SUMMARY REPORT

Academic year: 2021-22

No. of Hours: 30

Course Co-ordinator: **Fathima Shadin P**

Department of Chemistry of WMO Arts and Science College, Muttil conducted a certificate course on the topic "Detergents and Hand sanitizer making". The course started from 1st December 2021 to 28th January 2022, 20 students participated in the programme. Fathima Shadin P handled the session. All the participants have been granted certificates for the course. The content of the course includes theory sessions on pharmaceutical chemistry and analytical chemistry and practical session on the process of making soap, detergents, hand wash and hand sanitizer. Participants have undergone the training with great enthusiasm. Finally, we evaluated the participants' using a practical test.

Course Outcome

- Understand the role of chemistry in service of humanity
- Understand the manufacturing processes of soap, detergents, hand wash, and hand sanitizers
- Understand the principles of drug discovery and development, and pharmaceutical analytical techniques
- Analyze chemical samples using various analytical techniques
- Understand the importance of sustainability and quality control in chemical manufacturing and analysis.

ENVIRONMENTAL CHEMISTRY

SUMMARY REPORT

Academic year: 2021-22

No. of Hours: 30

Course Co-ordinator: **Dr. Thomas Thevara**

Department of Chemistry of WMO Arts and Science College, Muttill conducted a certificate course on the topic "Environmental Chemistry". The course started from 4th October 2021 to 20th October 2021. 25 students participated in the programme. Dr. Thomas Thevara handled the session. All the participants have been granted certificates for the course. The content of the course includes Introduction to Environmental Chemistry, Sources and Types of Environmental Pollution, Analytical Techniques in Environmental Chemistry, Global Environmental Issues, Environmental Regulations and Policies.

Course Outcome

- Understand the chemistry of natural and anthropogenic compounds in the environment.
- Analyze environmental samples and interpret the results.
- Identify sources of environmental pollution and evaluate their impact on the environment.
- Identify various global environmental issues and impacts.
- Evaluate environmental policies and regulations and propose solutions to environmental problems.

Certificate Course on Recreational Mathematics (WMMAT1)

Summary report

Academic year:2021-22

No. of Hours : 30

Course Co-ordinator: Afeera M

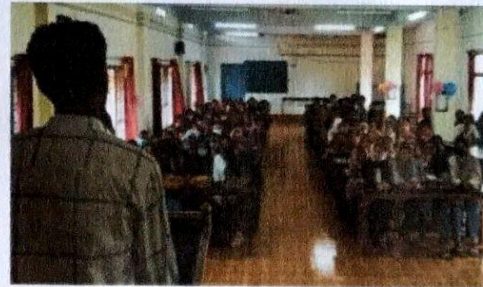

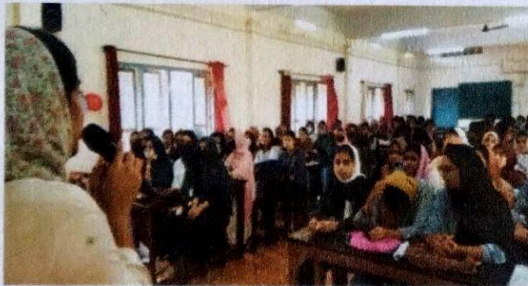

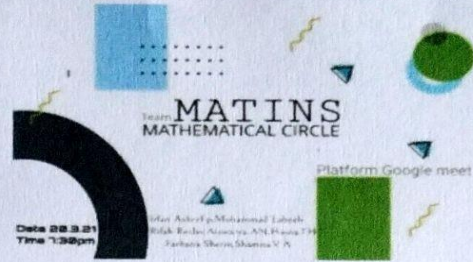

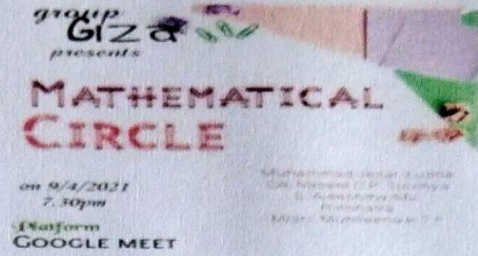

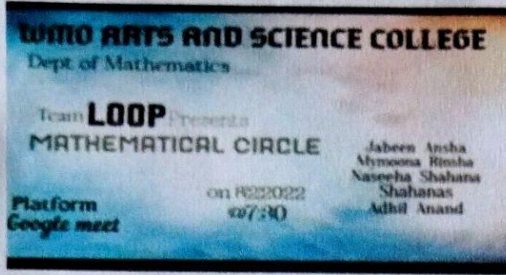

The Certificate Course on Recreational Mathematics (WMMAT1) was designed to promote mathematical curiosity, problem-solving skills, and a sense of enjoyment among students.

The participants understood how to capture the interest and motivation of people who find mathematics dull and uninteresting. The course was conducted from 08-06-2021 to 30-01 -2022. Faculty members in the Department of Mathematics helped the students to develop and execute mathematical ideas into creative models. 10 sessions were conducted using online mode during the period and students' presentations on various topics were conducted as part of activities of the Mathematical Circle. Six practical sessions were conducted on new mathematical challenges and puzzles. Students got experience with various puzzles, games, geometric constructions, and models in Mathematics. The collaborative nature of the course helped students to exchange ideas and learn from one another's approaches. The students became familiar with the historical background, applications, and significance of recreational mathematics in various domains. Eighty-six students, who successfully completed all the activities related to the course, were given certificates.

Course outcomes:

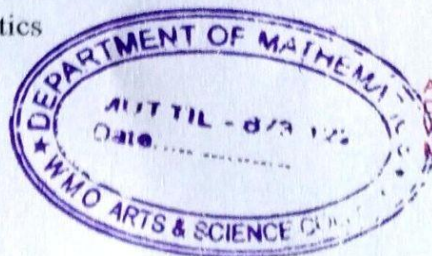

- Improved creative thinking and logical reasoning.
- Enhanced problem-solving skills.
- Students could enjoy doing mathematics and explore practical applications of recreational mathematics.
- Students became able to communicate math with non-mathematical audiences.
- Students learned to identify patterns and construct logical arguments.
- Students became able to apply mathematics to real-life problems.

Certificate Course on Basics of Astronomy.

Summary report

Academic year :2021-22 (I)

No. of Hours : 37

Course Co-Ordinator: Dr. Biju KG

Certificate Course on Basics of Astronomy (WMPHY2) was designed as a 37-hour certificate course. The course was conducted from 08/06/2021 to 22/09/2021 through offline/Online mode and conducted a written examination at the end of the course. Twenty-three students registered and successfully completed the course. The course involves studying the vastness of the Universe, the complexity of galaxies, and the incredible distances between celestial objects. The study of astronomy requires a high level of attention to detail, critical thinking, and problem-solving skills. These skills can be transferable to other areas of life and work and can help individuals become more responsible in their personal and professional lives.

Course outcomes:

- Students learn the star constellations, eclipses etc.
- They became capable of identifying the various celestial objects in the night sky
- They learn how to mark the positions of celestial objects.
- They learn the structure of the sun and the solar system.
- They learn about the formation and evolution of stars and Galaxies.
- They learn the major theories about the Universe.
- It will enable the students to think critically and develop problem-solving skills.
- Knowledge of astronomy can help them to see the Universe in a whole new light and can help to become humbler and more appreciative of their place in the Universe.

Certificate Course on Non-Conventional Energy sources.

Summary report

Academic year :2021-22

No. of Hours : 30

Course Co-ordinator : Dr. Biju KG

Certificate Course on Non-Conventional Energy Sources (WMPHY1) was designed as a 30-hour certificate course. The course was conducted from 06/01/2022 to 12/03/2022 through offline mode, and conducted a written examination at the end of the course. Twenty-four students registered and successfully completed the course. The use of non-conventional energy sources promotes sustainable development by reducing the reliance on fossil fuels and minimizing the carbon footprint. A certificate course can equip individuals with the knowledge and skills to promote and implement sustainable development practices.

Course outcomes:

- Students learn the various types of Non-Conventional Energy sources.
- They understand the need to shift from conventional energy sources to Non-Conventional Energy sources.
- They learn the different techniques for converting energy from Wind, Ocean, Sun etc., to other usable forms.
- They acquired a vision of global citizenship by understanding the problems caused by the continuous and consistent use of fossil fuels. They also learned the importance of working together for a green earth.

**Certificate Course on Statistical Data Processing and Analysis Using
Software Summary report**

Academic year :2021-22

No. of Hours : 30

Course Coordinator : Mr. Madhusoodhanan K

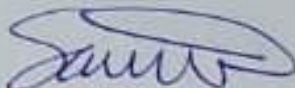

Department of Economics of WMO Arts and Science College, Muttill conducted a certificate course on the topic "Statistical Data Processing and Analysis Using Software". The course started from 16th August 2021 to 3th September 2021, 53 students participated in the programme. Mr. Madhusoodhanan K handled the session. All the participants have been granted certificates for the course. The content of the course includes the study of basic statistical tools using MS Office and Spreadsheet. Participants have undergone the training with great enthusiasm. They have successfully completed the online training during the stipulated period of 15 days. Finally, we evaluated the participants' using a practical test. 53 students, who successfully completed the course, were given certificates.

Course outcomes:

- Students were more acquainted with theoretical aspects like diagram, graph, correlation, regression, time series etc.
- Students learned about statistical analysis.
- Students familiarized software like SPSS, R besides the application software like MS Office
- Students acquired skills in statistical data processing and analysis.

Course Co-ordinator: Mr.Madhusoodhanan K

Department of statistics, WMO Arts and Science College, Muttill has successfully conducted a certificate course on "Advanced Programming in R". The course started from 10th January 2022 and ended on 28th January 2022. The 30 hours short-term course consists of a package of data analysis with the software R. It consists of introduction to probability, inferential statistics, and linear regression and modeling. There are 16 participants in the course. Mr.Madhusoodhanan K, led the session with the help of faculties from the Department of Statistics. All successfully completed the short-term programme. After an evaluation test, participants had been awarded certificates.

Course outcomes:

- Students will learn skills in programming with R
- Students will be acquainted with the concepts of probability theory
- Students will be able to make out the basics of sampling methods.
- Creative thinking and logical reasoning will be developed
- Students learn to familiarize data analytics

Certificate Course on Statistical Package for Social Sciences (SPSS)

Summary report

Academic year :2021-22

No. of Hours : 30

Course Co-ordinator: Dr.Raju N

Department of Statistics of WMO Arts and Science College, Muttill conducted a certificate course on the topic "Statistical Package for Social Sciences (SPSS)". The course started from 7th February 2022 to 25th February 2022, 14 students participated in the programme. Ms. Athira Jose handled the session. All the participants have been granted certificates for the course. The content of the course includes the study of doing descriptive statistics, bivariate statistics, outcome prediction, etc. using SPSS. Participants have undergone the training with great enthusiasm. They have successfully completed the training during the stipulated period of 15 days. Finally, we evaluated the participants' using a practical test. 16 students, who successfully completed the course, were given certificates.

Course outcomes:

- Students will learn skills in programming with SPSS
- Students will be able to do quantitative analysis using data in SPSS
- Students will be able to do prediction using linear regression and other methods
- Critical thinking and logical reasoning of students will be developed

Circuit Simulation and PCB Designing

Summary Report

The Department of Electronics offered a certificate course on Circuit Simulation and PCB Designing from 24th November 2021 to 4th January 2022. The 30-hour course, co-ordinated by Abdul Rasheed, Assistant Professor, attracted a total of 33 participants from BSc Electronics. The course provided a comprehensive understanding of circuit simulation techniques and practical skills in designing printed circuit boards (PCBs). Participants gained valuable knowledge in analysing circuit behaviour, optimizing performance, and implementing PCB layouts. Overall, the course successfully equipped the participants with essential skills in circuit simulation and PCB designing.

Certificate course on Basics of Flutter

Academic Year :2021-2022

Number of Hours:30

Course coordinator: Mr.Rasheed N K

Summary Report

The course on basics of flutter was held from:05.04.2022 to 09.05.2022. .68 students have enrolled and successfully completed the course.

The Basics of Flutter course is designed to introduce students to the fundamentals of Flutter, a popular open-source UI software development kit (SDK) created by Google. Flutter enables developers to build natively compiled applications for mobile, web, and desktop from a single codebase. This course is suitable for beginners with some programming experience and aims to equip learners with the foundational knowledge required to start building cross-platform applications using Flutter.

By completion of the course students will get an idea on the following topics

- Overview of Flutter and its features.
- Understanding the advantages of using Flutter for cross-platform development.
- Setting up the development environment (installing Flutter SDK, IDE setup).

Dart Programming Language:

- Basic syntax and data types in Dart.
- Control structures (if-else statements, loops) and functions.

Flutter Widgets:

- Understanding the building blocks of Flutter: widgets.
- Introduction to stateless and stateful widgets.
- Exploring common Flutter widgets for UI design, layout, and interactivity.

Number of students participated: 19

Duration: January 2022

Course summary

Course has been successfully completed for 19 students under the coordination of the faculty concerned in the month January 2022. There was a total of 10 sessions. Students have shown significant improvement in their understanding on research.

Course outcome

Students gained knowledge and practice on the following domains

- Understood the significance and characteristics of scientific research
- Developed competence in conducting qualitative and quantitative research
- Understood about the research process of qualitative and quantitative research
- Gained an understanding about the application of statistical techniques in social work research

Certificate Course on Scientific Writing in LaTeX.

Summary report

Academic year: July 29-Aug 31 2022 (2021-22)

No. of Hours: 30

Course Co-Ordinator: Dr. Sirajudheen KK

Introduction: The 'Scientific Writing in LaTeX' Certificate course welcomed all participants to an engaging learning experience. The course aimed to familiarize individuals with LaTeX, a powerful open-source typesetting system specifically designed for the creation of scientific and technical documents.

Course Objective: The primary objective of the course was to equip students with the necessary skills to utilize LaTeX effectively in writing research project reports and other classroom-related documentation. By the end of the course, participants would have gained the proficiency required to produce high-quality scientific papers.

Course Duration and Structure: The course entailed a minimum commitment of 30 hours of dedicated work. Students were encouraged to follow the outlined structure and syllabus provided for a comprehensive learning experience.

Course Components:

1. Video Instructions: Participants will have access to instructional videos that guide them through the various aspects of LaTeX usage and scientific writing techniques.
2. Quizzes: Periodic quizzes will be conducted to assess participants' understanding of the concepts covered in the course.
3. Assignments: Students will be assigned practical tasks to apply their knowledge and skills in real-world scenarios.
4. Lessons: In addition to the video instructions, participants will have access to detailed lessons that delve deeper into specific LaTeX features and best practices for scientific writing.
5. Offline/Online Meetings: Occasional offline or online meetings may be organized to facilitate discussions, address queries, and foster a collaborative learning environment among participants.

Final Assignment: The course culminated with a final assignment, wherein students were required to prepare a five-page PDF document. The content of this document was based on problems or topics chosen from the various courses offered in the syllabus. This assignment served as an opportunity for participants to showcase their understanding of LaTeX and scientific writing techniques.

Conclusion: The 'Scientific Writing in LaTeX' Certificate course offered participants a comprehensive platform to enhance their scientific writing skills using the LaTeX typesetting system. Through video instructions, quizzes, assignments, lessons, and occasional offline/online meetings, students gained proficiency in utilizing LaTeX for research project reports and other classroom-related reports. The final assignment demonstrated their acquired knowledge by producing a five-page PDF document based on selected topics.

**Certificate Course on Technical Writing with LaTeX (WMMAT5)
Summary report**

Academic year:2021-22

No. of Hours : 30

Course Co-ordinator: Drishya T Das

The certificate course on Introduction to LaTeX was designed to help students to use LaTeX typesetting in their dissertation works and in writing any mathematical article. Participants learned to understand the dynamic difference in using mathematical typesetting software in typing mathematical articles. They achieved the ability to create mathematical documents in a creative and simpler method.

The course was conducted from 6-6-2022 to 30-6-2022. All sessions were conducted offline in the Department of Mathematics and Computer Lab. The course mainly focused on postgraduate students who were about to begin their dissertation work. A total of 26 students attended the sessions. The sessions explained the commands and formats in a LaTeX document and encouraged the students in creating their own documents. Two assignments were provided to the students as a part of the certificate course. The students, who completed the assignments within the given period, were given certificates.

Course outcomes:

- Understand the basic ideas of how to write a document in LaTeX.
- Understand the effective use of open-source software in the dissertation.
- Understand the need for Free and Open-Source Software in the field of Mathematical research.
- ability to type a document including mathematical symbols and structures.

CERTIFICATE COURSE 2021-22 TRANSLATION STUDIES IN MALAYALAM

Summary report of the course

Academic year: 2021-22

Hours: 30

Course co coordinator: Shyju p.k

2021-22 വർഷം മലയാളവിഭാഗം ഒന്നാം സെമസ്റ്റർ ബി.എ വിദ്യാർത്ഥികൾക്കായി നടത്തിയ സർട്ടിഫിക്കറ്റ് കോഴ്സ് വിജയകരമായി പൂർത്തീകരിച്ചു. വിദ്യാർത്ഥികളിൽ വിവർത്തന സാധ്യതകളെ മനസ്സിലാക്കിയെടുക്കാനും ഒരു ഭാഷയിൽ നിന്നും മറ്റൊരു ഭാഷയിലേക്ക് മൊഴിമാറ്റം ചെയ്യുമ്പോൾ നേരിടുന്ന വെല്ലുവിളികൾ തിരിച്ചറിയാനും പഠിപ്പിച്ചു. 100 വിദ്യാർത്ഥികൾ കോഴ്സ് പൂർത്തീകരിച്ചു.

Course outcome

1. നോവൽ, ചെറുകഥ, കവിത എന്നിവ വിവർത്തനം ചെയ്യുമ്പോൾ ശ്രദ്ധിക്കേണ്ട വസ്തുതകളെ പഠിപ്പിച്ചു.
2. വിവർത്തനത്തിൽ പ്രാദേശിക ഭാഷകൾ നേരിടുന്ന വെല്ലുവിളികൾ പഠിപ്പിച്ചു.
3. മലയാളത്തിൽ നിന്നും മറ്റു ഭാഷകളിലേക്ക് വിവർത്തനം ചെയ്യപ്പെട്ട പ്രധാന കൃതികൾ പഠിപ്പിച്ചു.
4. വിവർത്തന ചരിത്രം പഠിപ്പിച്ചു.
