

Webinar on Corona- the present Pandemic

The "Corona - The Present Pandemic" webinar was a timely and informative virtual event conducted by I year B. SC Mathematics students during July-17-18, 2021. It aimed at providing participants with a comprehensive understanding of the COVID-19 pandemic. The webinar brought together medical experts, public health officials, researchers, and professionals to discuss various aspects of the pandemic, including its origins, impact on public health, medical response, and societal implications. Total 40 students participated.
