

FACILITIES TO VIEW SOLAR ECLIPSES AT 5 DIFFERENT PLACES

The Department of Physics, WMO Arts and Science College, Muttill arranged opportunity for the public to view annular solar eclipse (An annular solar eclipse happens when the moon appears relatively small in the sky so does not fully cover the disk of the sun, leaving a thin outer ring often called a "ring of fire.") at five different places on 26th December 2019. Kunnamangalam, Pooloor, Muttill Town, Precinct of St. Mary's College, Sulthan Bathery, and WMO College campus were the places. The facilities that the department arranged was unique in nature and in the way that set in. The General public and the students of the mentioned places wondered on this special view of the annular solar eclipse. About 50 people including students and the general public benefitted from the programme.
