Introduction

From 2017 to 2022, the college has seen a significant increase in the number of research papers published by its faculty members. A total of 68 papers have been published in various national and international journals, spanning a wide range of disciplines and topics. These publications reflect the commitment of our faculty members to contribute to the advancement of knowledge in their respective fields.

The research topics covered in these papers are diverse and relevant, addressing important issues and contributing to the academic discourse in their respective fields. The papers have been published in a variety of years, with a significant number of them being published in the most recent years, reflecting the active and ongoing research efforts of our faculty members. These publications not only enhance the academic reputation of our college but also provide valuable learning and research opportunities for our students. They stimulate intellectual curiosity, encourage critical thinking, and foster a culture of research and innovation.

In conclusion, the publication of these 68 papers is a testament to the vibrant research culture at our college. It underscores our commitment to academic excellence and our pursuit of creating and disseminating knowledge for the benefit of our students, the academic community, and society at large.
