Introduction

The faculty members of our college have been actively involved in academic and research activities, contributing to the field of knowledge through their publications. From 2017 to 2021, they have published numerous papers in various conferences and authored several books and book chapters.

The first dataset showcases the books and book chapters published by our faculty. These publications span a wide range of topics, reflecting the diverse interests and expertise of our faculty members. The authors have shared their knowledge and insights through these publications, contributing to the academic community and beyond.

The second dataset presents the papers published by our faculty in different conferences. These papers, presented at both national and international platforms, demonstrate the active participation of our faculty in scholarly discussions and debates. They have shared their research findings, contributing to the advancement of their respective fields.

These publications, both books and conference papers, highlight the commitment of our faculty to research and knowledge dissemination. They have not only enriched the academic community with their contributions but also enhanced the learning experience of our students, providing them with up-to-date knowledge and stimulating discussions.
