### Clarifications on the metric 3.3.2

1. The data are revised by considering the academic year. Also, four books/chapters from edited volumes are removed, as they do not possess ISBN.
2. Considering the book's publication date, they are grouped into different academic years. It is found that the numbers suggested by DVV are slightly different from the actuals.

Academic Year	2021-22	2020-21	2019-20	2018-19	2017-18
DVV suggested	16	7	8	6	1
HEI Input	16	10	5	6	1

3. Web links of the books and publication year are provided.
4. English translations of the supporting documents in the regional languages are provided.
