Introduction

From 2017 to 2021, the college established 22 Memorandums of Understanding (MoUs) and 16 linkages with various colleges, organizations, and research institutions. These collaborations include joint research projects, exchange programs for students and faculty members, sharing academic resources and expertise etc. The aims and objectives of the MoUs and Linkages/collaborations have been achieved with various activities. This extensive network of partnerships and alliances brings forth a multitude of advantages for both students and faculty members. These partnerships enrich the learning experiences and stimulate Research and innovation, and created opportunities for students and faculty members to engage in interdisciplinary learning, access a broader range of resources, and gain exposure to different educational approaches.
