## REPORT ON STUDENT REPRESENTATION IN VARIOUS ACTIVITIES.....

Date: .....

(2020--21)

During the 2019-20 academic year, the college did not have an elected student union due to the COVID-19 pandemic. However, the college ensured that student representatives were consulted on all activities. The college elected student monitors from each class who were responsible for planning activities, and each department held regular meetings with students to gather feedback and input. All decisions regarding online classes, programs, and other activities were made in consultation with the student monitors. Despite lacking a formal student union, the college remained committed to ensuring student representation and participation in decision-making.

The list of student monitors is given below.
