### Certificate Course on VAT

Value-added tax (VAT) is a consumption tax on goods and services that is levied at each stage of the supply chain where value is added, from initial production to the point of sale. The amount of VAT the user pays is based on the cost of the product minus any costs of materials in the product that have already been taxed at a previous stage. This VAT course helps the students to manage all the major tax operations in the business. The Certificate Course in VAT offered in our department comprehensively studies the basic functionalities of tax and accounts. It is a 30 hours certificate course that encompasses all critical aspects of an organization, including taxation, inventory, invoicing, manufacturing, etc.
