Clarification to DVV queries regarding Scholarships and Freeships (Metric No: 5.1.1).

DVV has requested to submit year-wise sanction letters for each of the scholarships and Freeships during the last five years.

Our students are availing both Government and Non- Government Scholarships and Freeships.

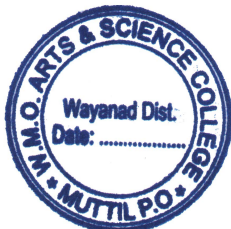

The application submission and sanction process is facilitated through web portals for Government Scholarships and Freeships. Instead of receiving sanction letters, approvals and grants are provided digitally. The concerned Government departments directly credit the scholarship amounts to the individual student accounts. In this scenario, we have used screenshots of the corresponding web portals of Government Scholarships and Freeships showing the sanction list of students as evidence of Sanction orders.

So, please consider these documents as proof of the Sanction orders of Government scholarships.

The sanction orders of all the non-Government scholarships and the number of students who are benefitted from each of the scholarships and freeships are also submitted.

NB: Also note that there are minor changes in the number of students who benefit from Scholarships each year, as some rejected applicant names were entered in the list mistakenly or by adding missing data. The corrected Excel data template is also submitted. The revised consolidated data is shown below.

Academic year	2017-18	2018-19	2019-20	2020-21	2021-22
Benefitted Students (SSR Data)	1357	1494	1369	1314	1264
Revised Data	1502	1451	1364	1277	1173
