Responses to Queries (DVV)- Metric 1.2.1

1) We have removed the Diploma in Computer application program which was conducted during the academic year 2017-2018. The revised Excel sheet is attached.

2) We have observed that the repetition of add-on/ certificate/ value-added program within the assessment period will be considered as a single occurrence. We have courses with the similar title, course code, and syllabus getting repeated in consecutive years. Courses with similar title and same syllabus are given same course code. There are 35 distinct certificate courses.

The consolidated list of the courses is attached

3) We have corrected the repeating course codes and the course codes of distinct certificate courses are made distinct. we have made necessary changes in all the relevant documents to avoid duplication.

4) We have attached models of certificates issued to the students for all certificate courses conducted
