Clarifications on the metric 1.3.2.

Response to query 1: We have excluded the details of the second, third and fourth, and final fieldwork of students from the Department of Social Work (SI no 356-412 & SI no 440-466, in the previous Excel document submitted with SSR). Further, we have added the details of the project conducted by second year students of the Department of Electronics and Chemistry (SI no 648-695, in the revised Excel document). As per the revised data, currently, we have a total of 693 students undertaken project work/field work/ internships in the academic year 2021-22. The revision has been highlighted.

Response to query 2: Permission letter from 'Kudumbashree', State Poverty Eradication Mission (SPEM), Government of Kerala, and photos of First semester fieldwork of the students at the Department of Social Work have been added. We have included sample photos, which could depict the nature of fieldwork our students have done in the community.

Response to query 3: We have added the objectives of the fieldwork.
