Analysis of Teachers' Feedback on Curriculum (2020-21)

Feedback is duly collected from teachers every year. As a community that keeps in touch with the different syllabus revisions and the student standards from time to time, the most expert and resourceful suggestions were obtained from them. It is notable that teachers from most of the departments were satisfied with the density of the curriculum offered by the university. The high difficulty level of some courses in the undergraduate syllabus implemented from 2019 onwards was pointed out and communicated the matter with Members of the Board of Study. The syllabus for the BSc Mathematics program was revised in the year 2020, because of the efforts.
