Students' Feedback on Curriculum

Feedback Analysis

2018- 19

The exchange of feedback between teachers and students has emerged as a powerful tool for enhancing the quality of education, promoting student engagement, and empowering learners in the classroom. It can improve teaching effectiveness and create a positive learning environment.

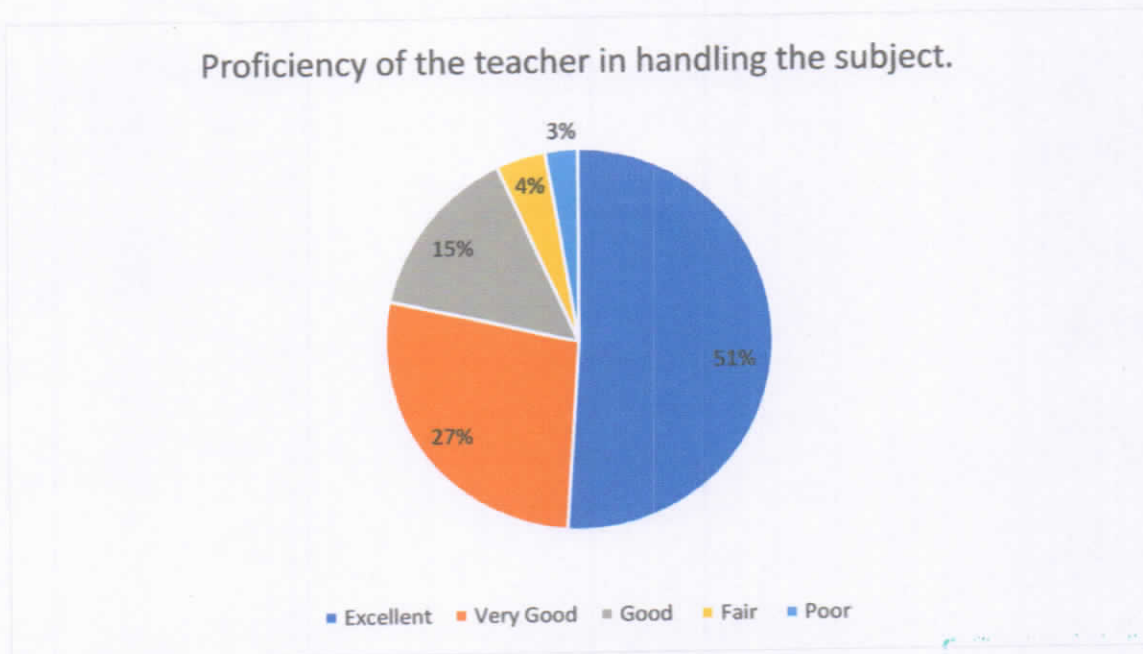

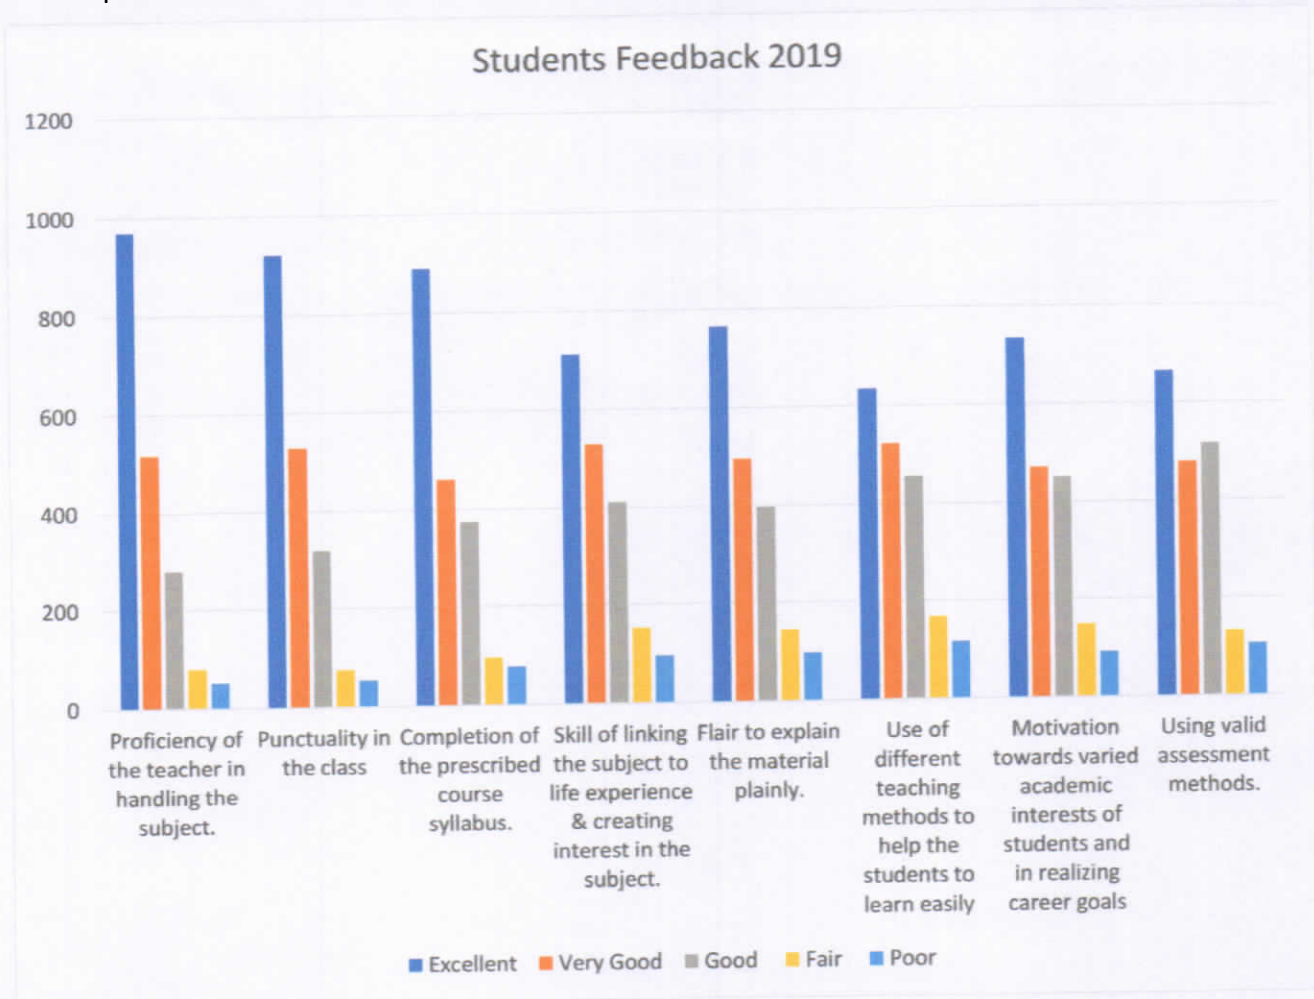

The below mentioned feedback analysis consists of the following domains on which students have given feedback about teachers; i) proficiency of the teacher in handling the subject, ii) punctuality in the class, completion of the prescribed course syllabus, iii) skill of linking the subject to life experience & creating interest in the subject, iv) flair to explain the material plainly, v) use of different teaching methods to help the students to learn easily, vi) motivation towards varied academic interests of students and in realizing career goals, vii) using valid assessment methods.

During the academic year 2018-19, the IQAC collected feedback from students of the institution using google forms. The Google forms prepared with the aim to collect realistic responses were circulated among students. All these feedbacks were analysed by using a 5-point rating scale. The responses to each question are analysed using Pie diagrams.
