Students' Feedback on Curriculum

Feedback Analysis

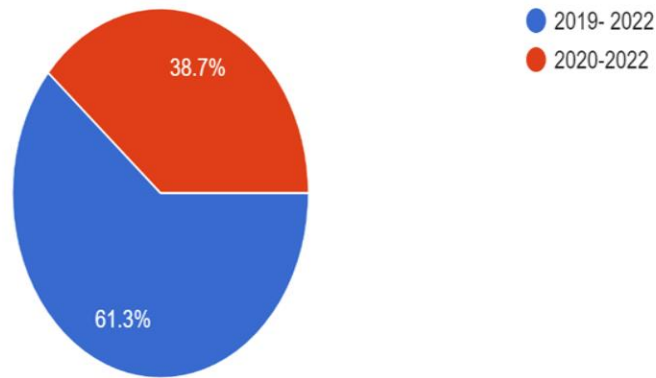

2021-22

During the academic year 2021-22, the IQAC collected feedback from students of the institution using google forms. The Google forms prepared with the aim to collect realistic responses were circulated among students. All these feedbacks were analyzed by using a 4-point rating scale. The responses to each question are analyzed using Pie diagrams.

The feedback collected from the students signifies that most of the students are satisfied with the system prevalent in the college. IQAC decided to bring the matter before the College Council along with the findings and recommendations pertaining to the infrastructure facilities and curriculum delivery processes. It was noted that a minority of the students reported that teachers do not use ICT tools such as LCD projectors, Multimedia, etc. while teaching. Also, some students were not satisfied with the efforts made by the institute to inculcate employability skills to make them ready for the world of work. The specific suggestions and findings identified from the feedback were communicated to the concerned and actions were taken.
