Teachers’ Feedback on Curriculum

Feedback Analysis

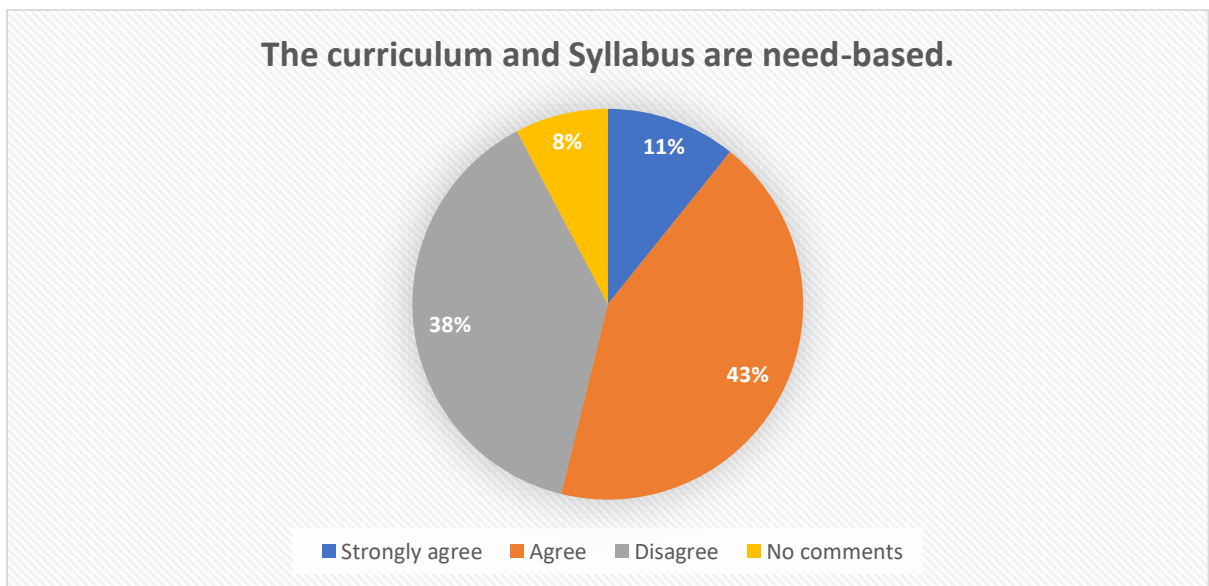

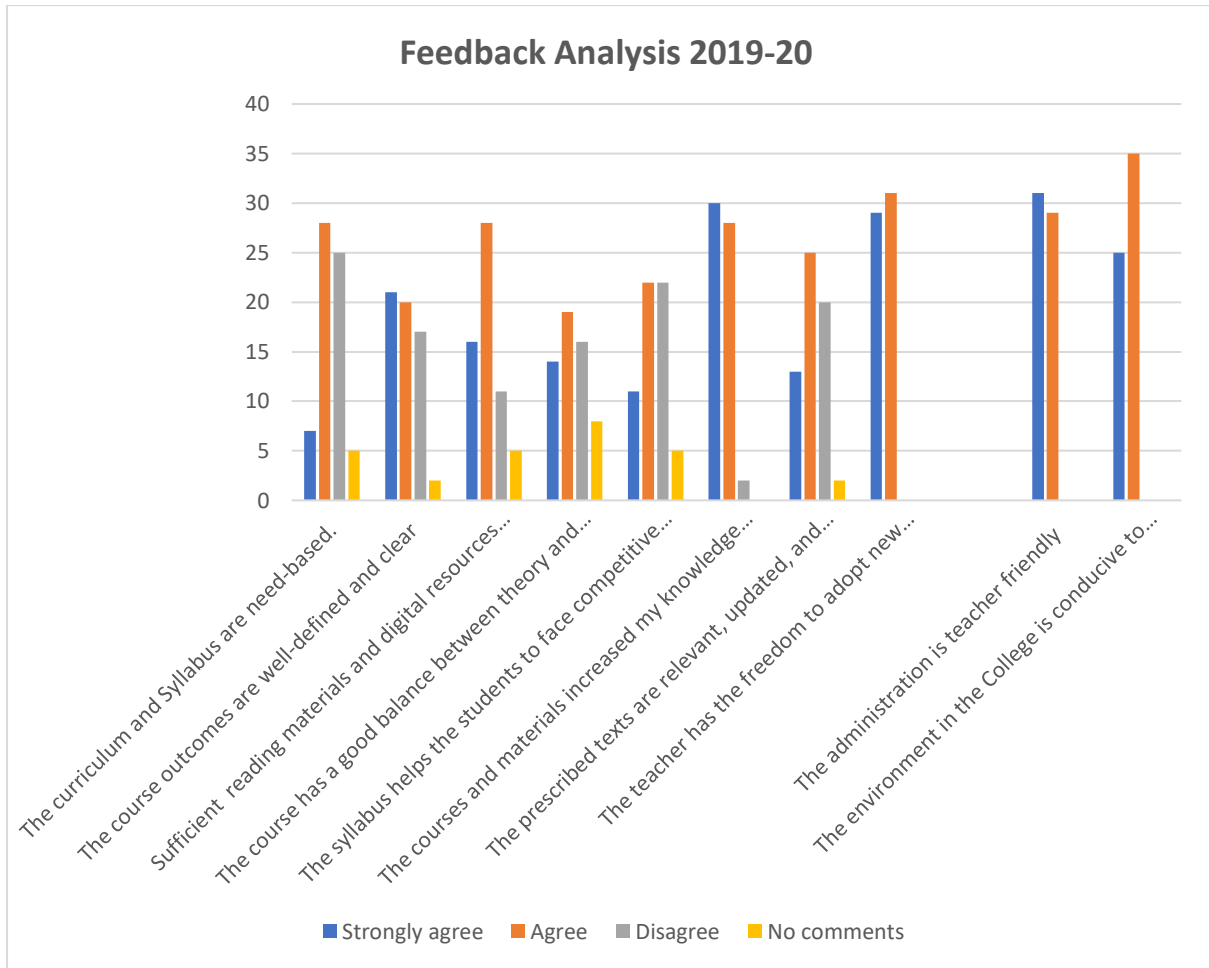

2019-20

Feedback is duly collected from teachers on the curriculum. As a community that keeps in touch with the different syllabus revisions and the student standards from time to time, the most expert and resourceful suggestions were obtained from them.

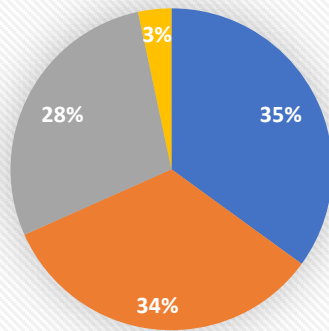

The teachers pointed out the imbalance between portions to be covered and the time allotted for the same for some of the courses like Complementary Mathematics. The teachers also expressed the need for enrichment of the library resources and provision for conducting special lectures for completion of the curriculum. An OBE workshop was conducted in the college for restructuring the syllabus of the BSc Electronics Programme.

Due to the Covid-19 outbreak at the end of the academic year 2019-20, the classes were turned online and both teachers and students faced new challenges to cope with the new situation. Occasionally, many suggestions were put forward by faculty and students for the effective delivery of the curriculum and smooth running of the teaching-learning process.

The suggestions and recommendations were duly considered, and necessary actions were taken.
