STUDENT FEEDBACK 2020-21
Analysis report

This report presents the student feedback analysis on the teaching-learning process conducted online due to the Covid-19 pandemic. The feedback was gathered through an online mode using a well-designed questionnaire that aimed to evaluate various aspects of the teacher's performance. The questionnaire consisted of five questions, which focused on the online platforms used by the teacher, the effectiveness of online communication, punctuality in online classes, the teacher's emphasis on knowledge transfer, and the teacher's overall performance. The report provides a comprehensive analysis of the feedback obtained from the students. It highlights the strengths and areas of improvement for the teacher in delivering an effective online teaching-learning experience.
