

The Department of Chemistry celebrated World Sparrow Day on March 20th, 2023, with an inauguration by Dr. Viji Paul, Head of the department of mathematics followed by an invited talk by Dr. Thomas Thevara, head of the department of chemistry . The session was attended by 25 students who were keen to learn about sparrows and their conservation. Dr. Viji Paul highlighted the importance of such events in creating awareness about conservation efforts, while Dr. Thomas Thevara shared his extensive research on the subject. The talk was highly informative and engaging, inspiring the students to take an active interest in preserving the sparrow population. Overall, it was a successful event that provided valuable insights and information to the attendees.
